Introductory Word of Chairman of the Board

Dear shareholders,

Dear business partners, Dear friends,

I have to admit that it is not easy at all for me to write this introductory word to the Annual Report. The year 2017 was full of abrupt changes in the market of paints, and, in particular, in the market of raw materials. Fluctuations in raw materials prices reached in several cases even tens of percent and it was really difficult to accordingly transfer such turbulences further. And this is the root cause why a commercially quite successful year (with continued sales growth) has not been adequately reflected in efficiency of our business activities. A more detailed explanation and figures can be of course found in the report of the Managing Board and the Statutory Director and in financial statements which are part of this Annual Report.

Even more complicated was development of the whole COLORLAK group. All subsidiary companies exhibited a year-on year decline in turnover, though moderate. Slightly optimistic we can be so far with sales of this year which, conversely, tend to develop. Obtaining full control over the Polish daughter company last year required performance of its economic rehabilitation which was the main reason of slump in profits of the entire group. Thus the last year was not very successful; however, COLORLAK group is strong enough to guarantee that it will succeed to manage this one-shot variation.

What should be our basis, where should we go? These are questions of versatile nature, beginning from purely technical solutions up to nearly psychological aspects. However, the bottom line is expressed in an idea of Mr. Kirschner in his brochure "How to sell more paints and varnishes" issued in 1937 which says: "Good reputation is the most important thing you can win, and it cannot be taken from you by anybody else except you yourself. Such good reputation includes not only a good service and good work, but always a little bit MORE. More services – more quality." Yes, and this is the way for us to move forward and strengthen our good reputation – by delivering good product quality and services to our customers.

aalf

Svatopluk Chalupa Chairman of the Board COLORLAK a.s.

Report of the Board and Statutory Director on Company Business Activities in 2017 and Assets as at 31.12.2017

A. Business Activities

In 2017, individual segments of paint materials market were developing in a markedly different way. Available information shows that the consumer market in the Czech Republic exceeded the level of 2012 last year only, while that one in Slovakia continued to further decrease on a year-on-year basis. In the market of paint materials for industrial customers the situation was different in individual sectors, however, the automotive industry continued reviving. Neither 2017 brought any significant recovery for the construction industry. These trends correspond to the development of our company sales last year.

Total net turnover of COLORLAK reached CZK 744.7 million last year which is by 4.9 % more on a year-over-year basis. The largest share in net turnover – almost 95 % - goes to sales of products, services and goods which exhibited a yoy increase by CZK 12 million, i.e. by 1.7 %, and reached nearly CZK 709 million. Such result is attributed mainly to higher supplies of paint materials to the automotive industry which went up by 15 % and their share of which in sales reached almost 39 %. However, sales to other industries and for exports declined, as well as yoy sales to the consumer market. The results in these sales segments are not very successful.

Prices of raw materials, materials, packages and power utilities were developing unfavourably during the past year. The rise in prices of some raw materials amounted to tens of percent yoy. This can be evidenced also by comparison of revenues from sold products and services which grew only a little bit over CZK 10 million while consumption in production rose by more than CZK 20 million. The complicated development in labour market continued but with slowdown of production growth we were even able to reduce the adjusted staff level by 3 %. Thus the personnel costs were yoy higher by 1 % "only". The average gross wage went up by 4.2 % on a year-over-year basis. Other indicators of profit and loss statement are more of accounting nature (depreciations and similar). As a result, the operating profit is by more than CZK 16 million lower year-on-year, i.e. it equals to 51.3 % of 2016.

Originally we had certain concerns regarding the impact of releasing the CZK/EUR exchange rate commitment. For that reason we in advance transferred part of our loans to EUR and the result proved the measure taken was the right one. The difference of about CZK 1 million between other financial revenues and other financial expenses was maintained. We also succeeded to slightly save on expense interests (decrease by 5.5%). The achieved income from ordinary activities conforms with the one already stated. The profit from ordinary activities reached almost CZK 10.1 million before tax, i.e. it is lower by already mentioned steep drop amounting to some CZK 16 million. The total after-tax profit of CZK 7.8 million is by CZK 13 million yoy lower which means that it corresponds to the level of 37 % in 2016.

The results of 2017 are the worst ones during the recent years. That is why we are currently working on analyses and measures in different areas of our activities which should reverse the current development and return the result to the previous level. Taking into account the results achieved, the Board and the Statutory Director propose that some CZK 2.5 million of the after-tax profit are approved to be paid out as dividends (shares in profit) and the remaining part, i.e. about CZK 5.3 million, is maintained in company own resources, i.e. in retained earnings from previous years. Thus a dividend of CZK 0.14 will be paid per one share which is by 64 % less than last year, i.e. it is rougly proportinal to the rate by which the profit is lower. In reality, the amount of the payout will be approximately CZK 1.8 million and about CZK 0.7 million will be maintained in the retained earnings. Detailed figures are provided in proposed resolution.

B. Assets

On a year-to-year basis, the volume of property held increased by 4 % which represents a little bit less than CZK 29 million. The balance sum totals to CZK 757.5 million. Fixed assets do not exhibit any major changes except depreciation (CZK 16 million). Nevertheless, it is necessary to mention an additional purchase of 34 % share in COLORLAK POLSKA. This step contributed to resolve prolonged disputes with a minority partner. Nowadays the company is in our full possession. Other changes in fixed assets do not have any significant impact.

However, current assets are higher by more than CZK 44 million, i.e. by 13 %. The volume of inventory decreased by 6.6 %, i.e. it got even below the level of 2016. In line with our long-term strategy of stock management, we endeavour to preferably keep stock of raw materials rather than products. That allows us to flexibly respond to demand for individual products. However, the balance development was mostly affected by increase of receivables by CZK 64 million (by nearly 33%). Less part of this increase (a little bit more than one third) can be attributed to our subsidiaries. By applying this "business loan" we succeeded to assist PANTER COLOR in financing their development (acquisition of stores), and stabilization in COLORLAK POLSKA.

Still a greater part of receivables goes with other business partners, especially in connection with deliveries to the automotive industry. The overall rise in such receivables (by CZK 44 million) is still within their maturity period, or 90 days after, which indicates that these are debts payment of which is not under any substantial threat. But the fact is that this situation is putting an extra pressure on our cash flow and our total funding. The preceding sentence is also related to decline in funds by more than CZK 12 million. However, their level corresponded to finance needs at the beginning of the year.

Under conditions of stagnating equity, we had to recover the balance by using external resources. The major part of balance growth was covered by increase in trade payables by more than CZK 30 million. We slightly slowed down payments of invoices, with maximum 30 days after their due date. Almost all our suppliers accepted this except several ones. In spite of increase in loans by CZK 11.5 million, their volume is by CZK 6 million lower than in 2015. In terms of financing, such changes can be perceived positively.

The comparison of balance figures shows that the state of assets and their financing is good. The fixed assets are in principle financed from long-term resources. Loan instalments are paid within contracted terms and other payables are just slightly delayed. We have created adjustments amounting to nearly CZK 16 million relating to problematic inventories and claims which makes 4.4 % of their total value at the end of 2017.

C. Consolidation

Consolidation of COLORLAK group for 2017 includes besides the parent company also PANTER COLOR a.s., AAA Barvy s.r.o., COLORLAK SK s.r.o. and COLORLAK POLSKA Sp. z.o.o. The consolidated operating income of the group reached almost CZK 1,117 million which represents a year-over-year fall by 3.9 %. At the same time, sales of products of COLORLAK brand went up by 3 %, i.e. by CZK 13 million. However, sales of goods declined by CZK 58 million, i.e. by 8.1 %. These lower sales can be attributed to all daughter companies, in particular those in Poland. In the Czech Republic the revenues of the group went up by 0.5 % while abroad the decline reached 15.8 %. Key activities are the domestic ones, making up nearly 73.2 % of COLORLAK group total net turnover.

The decline in revenues by CZK 45 million was not accompanied with a corresponding decrease in production consumption which fell off by less than CZK 26 million only which affects the whole profit and loss statement. While in the preceding year the personnel costs went up by one tenth, last year they rose by less than CZK 1 million in the group, i.e. by 0.4 %. The impact on the operating profit is significant. The year-on-year decline amounts to CZK 25 million and the achieved profit of CZK 6.2 million is only one fifth of the actual result of 2016. But the financial result from operations was better compared to the previous year, by approximately CZK 1 million (interest savings and minor fluctuations in CZK exchange rate). Thus the consolidated profit got into

loss by about CZK 4 million before tax, and some CZK 7 million after tax. In addition to the above mentioned result of the parent company, the main influence was the necessity of restructuring of Polish subsidiary.

Property of the group, i.e. its assets, reached almost an amount of CZK 750 million, with yoy increase by 2 %, i.e. by aproximately CZK 15 million (compared to 2015, it s by CZK 10 million less). The main influence is transferred to the consolidation from the parent company – it is the growth in receivables by CZK 41 million, i.e. by one quarter. With stagnation of bank loans, financing was secured by increase of short-term payables by CZK 34 million. In spite of the aforesaid fluctuations, property management of the group is a good one.

D. Acquisition of Company Own Shares

On 08 December 2016, our general meeting approved acquisition of company own shares.

The last general meeting was informed about the fact that in 2016 the company purchased 5,183,659 pcs of its own shares. From maximum amount of shares to be purchased as approved by the general meeting (5,370,000 pcs), 186,341 pcs of shares have not been used up till today which represents 3.5 % of the approved quantity. In 2017 no company own shares were acquired.

E. Development in 2018

The development of this year is so far considerably influenced by declines in sales in the first quarter of the year, especially in March. Only in that month sales in the group went down by CZK 24.5 million, i.e. by 13 %, compared to the previous year. The declines occurred in paticular due to negative development of climatic conditions, and also due to restrictions of supplies to the automotive industry which persist till today. In April and May, sales in subsidiaries accelerated and, compared to 2017, the subsidiaries currently exhibit sales growths from beginning of the year which have fully compensated drop-offs of the 1st quarter and are even higher by more than CZK 17 million, i.e. by some 5 %. This improvement was also supported by modified price list for the consumer market as of March 1 where development of raw materials prices has been reflected. Unfortunately, sales to the automotive industry keep to develop unfavourably and, in spite of intensive negotiations, the situation will not probably become clarified earlier than next month.

The development of raw materials prices has in principle calmed down, of course remaining on the previous higher level. At the end of April, the value added created by companies of the group was somewhat better than in the previous year (+ 1.6 %). Sales indicators in May promise even better results. It is expected that business and financial plans for 2018 will be met.

In Staré Město, on 25 May, 2018

INDEPENDENT AUDITOR'S REPORT

To the Shareholders of COLORLAK, a.s.

Opinion

We have audited the accompanying financial statements of COLORLAK, a.s. (hereinafter also the "Company") prepared in accordance with accounting principles generally accepted in the Czech Republic, which comprise the balance sheet as at 31 December 2017, and the income statement, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information. For details of the Company, see Note 1 to the financial statements.

In our opinion, the financial statements give a true and fair view of the financial position of COLORLAK, a.s. as at 31 December 2017, and of its financial performance and its cash flows for the year then ended in accordance with accounting principles generally accepted in the Czech Republic.

Basis for Opinion

We conducted our audit in accordance with the Act on Auditors, and Auditing Standards of the Chamber of Auditors of the Czech Republic, which are International Standards on Auditing (ISAs), as amended by the related application clauses. Our responsibilities under this law and regulation are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Act on Auditors and the Code of Ethics adopted by the Chamber of Auditors of the Czech Republic and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information in the Annual Report

In compliance with Section 2(b) of the Act on Auditors, the other information comprises the information included in the Annual Report other than the financial statements and auditor's report thereon. The Statutory Director is responsible for the other information.

Our opinion on the financial statements does not cover the other information. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. In addition, we assess whether the other information has been prepared, in all material respects, in accordance with applicable law or regulation, in particular, whether the other information complies with law or regulation in terms of formal requirements and

procedure for preparing the other information in the context of materiality, i.e. whether any non-compliance with these requirements could influence judgments made on the basis of the other information.

Based on the procedures performed, to the extent we are able to assess it, we report that:

- The other information describing the facts that are also presented in the financial statements is, in all material respects, consistent with the financial statements; and
- The other information is prepared in compliance with applicable law or regulation.

In addition, our responsibility is to report, based on the knowledge and understanding of the Company obtained in the audit, on whether the other information contains any material misstatement of fact. Based on the procedures we have performed on the other information obtained, we have not identified any material misstatement of fact.

Responsibilities of the Company's Statutory Director for the Financial Statements

The Statutory Director is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the Czech Republic and for such internal control as the Statutory Director determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Statutory Director is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Statutory Director either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the above mentioned laws and regulations will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the above law or regulation, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Statutory Director.
- Conclude on the appropriateness of the Statutory Director's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Statutory Director regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Prague, 22nd May 2018

COLORLAK SK, s.r.o.	Zvolenská cesta 37, Banská Bystrica, Slovakia	100	subsidiary	full

Financial statements of all companies are kept for presentation purposes in registered office of the parent company at Staré Město, Tovární 1076.

Changes in group structure

In 2017, share in registered capital of COLORLAK POLSKA Sp. z o. o. was increased from 66% to 100%.

In accordance with the legislation in force, the group does not incorporate the subsidiaries MILANO COLOR, a.s., EKOLAK s.r.o. and PANTER COLOR POLSKA Sp. z o. o.

Date of financial statements and balance sheet date of the companies included in the group is December 31, 2017.

Accounting methods and general accounting principles

The account books of the group are kept and consolidated financial statements were drawn up in accordance with the Act No. 563/1991 Coll. on Accounting as amended, executive regulation No. 500/2002 Coll., implementing some provisions of the Act No. 563/1991 Coll. on Accounting as later amended, for those accounting units that are business entities keeping their books in double-entry accounting system as amended, and Czech Accounting Standards for business entities as amended.

The accounting respects general accounting principles, in particular the principle of appraising value of assets by their historical costs, the principle of keeping accounts maintaining timing and subject-matter relations, the principle of precaution and the assumed probability that the accounting unit is capable to continue its activities.

For the purpose of preparing these consolidated financial statements of COLORLAK group some accounting procedures within the group have been unified.

Data contained in the present consolidated financial statements are provided in thousands of Czech Crowns (CZK).

Comments on Subsidiary Companies

PANTER COLOR a.s., Praha

Main activities of PANTER COLOR a.s. involve wholesale and retail business with paint materials and auxiliary preparations in all regions of the Czech Republic. Products of COLORLAK parent company represent more than half of company revenues from sales. The product assortment is further complemented with paint materials and auxiliary preparations of other producers, both domestic and from abroad. PANTER COLOR runs five wholesale warehouses and owns retail stores in most regions of the Czech Republic.

AAA Barvy s.r.o, Horoměřice

The activities of the company lie in retail trade with paint materials and construction chemical products. Thanks to an expanded network of its own stores and revival in the market of building materials and construction chemical products, the company exhibits a growth of revenues from sales on a regular basis, and also sales of COLORLAK products continue to grow in all premises of the company.

COLORLAK SK, s.r.o., Banská Bystrica

This Slovak subsidiary runs both wholesale and retail business with paint materials and products of construction chemistry. Similarly as in the Czech Republic, also in Slovakia sales of paint and construction materials continue to grow; the company also succeeded to achieve increased sales of products produced by the parent company.

COLORLAK POLSKA, Nowa Sól

The company focuses on sales of paint materials to small fabricants and tradesmen from its warehouse in Nowa Sól.
